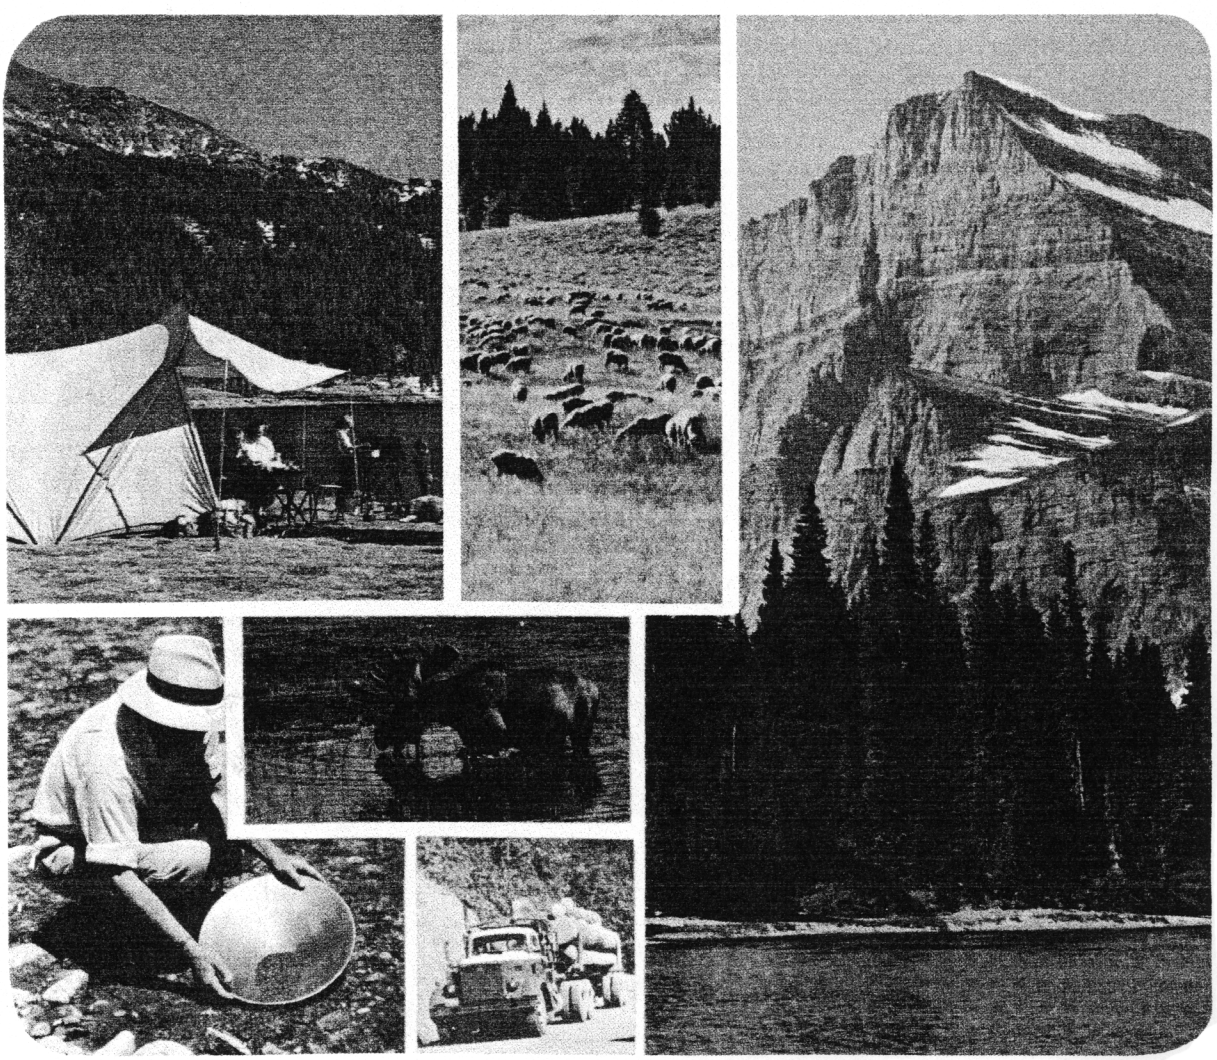
General Technical
Report PSW-42

Economic Data for Wildland Planning and Management in the Western United States: A Source Guide

Eric Eisenman Lee C. Wensel Edward C. Thor Thomas W. Stuart



Authors:

ERIC EISENMAN was a research assistant, Department of Forestry and Resource Management, University of California, Berkeley, when this report was prepared. He is now a graduate student at the University of California, Davis. **LEE C. WENSEL** is an associate professor of forestry, University of California, Berkeley. **EDWARD C. THOR** was formerly an economist with the Station's Land-Use and Landscape Planning Methodology Research Unit, at Berkeley, and is now a consultant with Resource Perspectives, Inc., Lafayette, Calif. **THOMAS W. STUART** was an economist with the Station's Land-Use and Landscape Planning Methodology Research Unit, at Berkeley, Calif., and is now an operations research analyst, Lolo National Forest, Missoula, Mont.

Acknowledgment:

We gratefully acknowledge the suggestions made by members of the University of California; Forest Service, U.S. Department of Agriculture; Bureau of Land Management, U.S. Department of Interior; State of California and private individuals. We also thank the many officials at Federal and State agencies, colleges and universities, and private organizations who provided data for this report. The work reported herein was done by the University under agreement PSW-32 with the Pacific Southwest Forest and Range Experiment Station, and under University Project F-3816-MS (Lee C. Wensel, project leader). Funding for the University's work was provided by the Forest Service's Surface Environment and Mining (SEAM) Program, formerly located at Billings, Montana.
