PROJECT**

ERRATA

Two corrections are made to Table 11: Project Design Measures for Project Design Measure Items 12 and 25 in the Environmental Assessment (pages 27 and 28). They are hereby corrected as follows:

Project Design Measure Item	Description of Project Design Measure
12.	<p>If an active goshawk nest is discovered within a stand prior to or during treatment activities work [replace should with would] would be halted and the wildlife biologist will be notified immediately to determine the steps to resolve the situation.</p> <p>The rest of the description of the project design measure is unchanged.</p>
25.	<p>If fawns and/or calves are found in active treatment units from the third week of May through the first week of July, individuals implementing the activity (Forest Service/contractor) will coordinate options with the project leader to work in other areas within the vicinity until the young [replace removed with move] move from the area.</p> <p>The rest of the description of the project design measure is unchanged.</p>
