

FSH 2509.22 - SOIL AND WATER CONSERVATION HANDBOOK
R-10 AMENDMENT 2509.22-96-1
EFFECTIVE 10/31/96

CHAPTER 10 - WATER QUALITY MANAGEMENT FOR
NATIONAL FOREST SYSTEM LANDS IN ALASKA

Contents

11 INTRODUCTION

- 11.1 Best Management Practices (BMPs) Application
- 11.2 BMPs as Administrative, Preventive, and Corrective Actions
- 11.3 Development Considerations
- 11.4 NEPA and Interdisciplinary Involvement
- 11.5 Training
- 11.6 Monitoring Process
- 11.7 Format

BEST MANAGEMENT PRACTICES

12 WATERSHED MANAGEMENT

- 12.1 Cumulative Watershed Effects Analysis
- 12.2 Rehabilitation After Mass Wasting
- 12.3 Watershed Rehabilitation, Planning and Implementation
- 12.4 Floodplain Identification, Evaluation, and Protection
- 12.5 Wetland Identification, Evaluation, and Protection
- 12.6 Riparian Area Designation and Protection
- 12.6a Buffer Zone Design and Layout
- 12.8 Oil Pollution Prevention and Servicing/Refueling Operations
- 12.9 Oil and Hazardous Substances Pollution Contingency Planning
- 12.10 Control of Activities Under Special-Use Permit
- 12.13 Administrative Site Planning and Management
- 12.14 Utility Corridor Planning and Management
- 12.15 Sanitary Facilities
- 12.16 Control of Solid Waste Disposal
- 12.17 Revegetation of Disturbed Areas

13 TIMBER MANAGEMENT

- 13.1 Timber Sale Planning
- 13.2 Timber Harvest Unit Design
- 13.3 Designating Protection Needs on Sale Area/Unit Release Maps
- 13.4 Timber Sale Operating Schedule
- 13.5 Identification and Avoidance of Unstable Areas
- 13.9 Determining Guidelines for Yarding Operations
- 13.10 Log Landing Location and Design
- 13.11 Scheduling and Enforcement of Erosion Control Measures
- 13.12 Site Preparation
- 13.14 Completion of Erosion Control for Unit Acceptance and Sale Closure
- 13.16 Stream Channel Protection
- 13.17 Nonrecurring "C" Provisions for Watershed Protection
- 13.18 Modification of the Timber Sale Contract

14 TRANSPORTATION AND OTHER FACILITIES MANAGEMENT

- 14.1 Transportation Planning
- 14.2 Location of Transportation Facilities
- 14.3 Design of Transportation Facilities
- 14.4 Location, Permitting, and Design of Log Transfer Facilities
- 14.5 Road and Trail Erosion Control Plan
- 14.6 Timing Restrictions for Construction Activities
- 14.7 Measures to Minimize Mass Failures
- 14.8 Measures to Minimize Surface Erosion
- 14.9 Drainage Control to Minimize Erosion and Sedimentation
- 14.10 Pioneer Road Construction
- 14.11 Timely Erosion Control Measures for Incomplete Projects
- 14.12 Control of Excavation and Sidecast Material
- 14.14 Control of In-Channel Operations
- 14.15 Diversion of Flows Around Construction Sites
- 14.17 Bridge and Culvert Design and Installation
- 14.18 Development and Rehabilitation of Gravel Sources and Quarries
- 14.19 Disposal of Construction Slash and Stumps
- 14.20 Road Maintenance
- 14.22 Access and Travel Management
- 14.23 Snow Removal Operations
- 14.24 Road Obliteration
- 14.25 Surface Erosion Control at Facilities
- 14.26 Daily LTF Cleanup
- 14.27 Log Storage/Sortyard Erosion Control

15 PESTICIDE-USE MANAGEMENT

- 15.1 Pesticide-Use Planning
- 15.2 Follow Pesticide Label and EPA Registration Directions
- 15.4 Pesticide Spill Contingency Planning
- 15.5 Protection of Water Quality, Wetlands, and Riparian Areas During Pesticide Application

16 RECREATION MANAGEMENT

- 16.1 Recreation Facilities Planning and Location
- 16.4 Trail Construction and Maintenance
- 16.5 Management of Off-Road Vehicle Use

17 MINERALS MANAGEMENT

- 17.1 Mining Site Conditions, Planning, and Design
- 17.2 Placer Mining
- 17.3 Hard Rock Mining
- 17.4 Permits and Administration of Geophysical Operations
- 17.5 Site Closure and Rehabilitation
- 17.6 Abandoned Mine Land Reclamation

18 FISH AND WILDLIFE HABITAT MANAGEMENT

- 18.1 Fish and Wildlife Habitat Improvement Planning
- 18.2 Development of Groundwater-fed Spawning and Rearing Habitat from Gravel Extraction and Other Sites
- 18.3 In-Channel Excavation or Disturbance During Fish and Wildlife Habitat Improvement Projects
- 18.4 Ground Fertilization for Wildlife Habitat Improvement
- 18.5 Lake Fertilization for Fish Habitat Improvement

19 FIRE SUPPRESSION AND FUELS MANAGEMENT

- 19.1 Fire and Fuel Management Activities and Prescriptions
- 19.2 Protection of Water Quality Through Prescribed Burning Prescriptions
- 19.3 Minimizing Watershed Impacts from Fire Suppression Efforts
- 19.4 Stabilization of Fire Suppression Related Watershed Damage
- 19.5 Emergency Watershed Rehabilitation Following Wildfires
