Almanor Recreation Trail Closed For Maintenance

Chester, Calif...For many people, exploring the Almanor Recreation trail is an enjoyable experience. Over time the trail has developed many cracks and holes, and now it is time to repair those cracks and holes. The Almanor Ranger District will be closing the trail beginning Wednesday, June 3rd, to repair the trail.

Heavy trail maintenance will include: patching holes, repairing root and frost cracks that have damaged the trail. The entire trail will be closed for two weeks, which will allow the contractor to work in several sections of the trail at one time. Almanor Ranger District Resource Officer Jane Goodwin commented, "While it may be an inconvenience to have the trail closed, the end result will be a much safer trail for all to enjoy when the work is done, we anticipate reopening the trail prior to the Fourth of July weekend."

Until trail repairs are completed, trail users are encouraged to check out the nearby Bizz Johnson Trail (between Westwood and Susanville) and the Eagle Lake Trail at the south shore of Eagle Lake. Both offer outstanding opportunities to hike, bike, and enjoy the scenery.

For more information regarding the Almanor Recreation Trail and the work to be done, contact the Almanor Ranger District at (530) 258-2141.
