Trail Description

Feel as if you are on top of the world. At an elevation of 6908 feet, you will see outstanding views of the vast territory surrounding Table Rock. Off in the distance, Lassen Peak is easily seen to the northwest.

(The trail is generally open from mid-June to mid-October, snow and road conditions permitting.)

Most of the trail is a broad path through the forest. Near the end, however, the trail narrows allowing only hikers to continue. This last stretch is a scramble over a rocky terrain, but it is well worth the effort. Be mindful of rattlesnakes as you travel across the rocks. This section of the trail uses stacked rocks to mark the path.

Be Aware:

Remote area (Bring a first aid kit)
4-wheel drive vehicle needed for road # 21N08 and road # 21N41

Note:

Open water sources are easily contaminated by human or animal waste. Water from springs, lakes, ponds, and streams should be properly treated before drinking. One recommended method of treatment is to bring clear water to a rolling boil for five minutes.
