

File Code: 1950 Cub Salvage
Date: September 19, 2002

ALL INTERESTED PARTIES:

Attached is a proposed action to salvage fire-damaged trees and treat green stands by pre-commercial thinning within the perimeter of the Grizzly Fire that began on July 12, 2002 on the Lakeview Ranger District. This proposed action is called the Cub Salvage Project. The overall purpose of this action is to salvage fire-damaged timber from approximately 1,700 acres within the 5,825-acre fire perimeter. Other project elements include planting seedlings and non-commercial thinning of green stands within the fire perimeter. See the attached Proposed Action for details of all proposed project elements. The proposed action does not represent a decision. Alternatives, including a *no-action* alternative, will be developed as analysis proceeds.

I am asking for your comments or concerns about this proposed project. Public involvement is an important element in properly scoping issues, determining how to best manage the resources, and fully analyzing environmental effects. If persons or groups wish to receive further information or if you would like to provide input on the proposed action, please respond to Jody Perozzi, PO Box 25, Bly, OR, 97622 or call 541-353-2723.

Scoping is ongoing throughout the analysis process; however, to facilitate the analysis it would be helpful to have your comments or concerns on this proposed action by Monday, October 21, 2002.

Your participation in the management of the Lakeview Ranger District is greatly appreciated.

Sincerely,

TERRY SODORFF
District Ranger

Enclosure
