SUMMER 2001

NOTE: The Siuslaw Project Update and other information about the Siuslaw National Forest can be accessed on our Web site at www.fs.fed.us/r6/siuslaw/.

This is the quarterly edition of Project Update notifying you of Siuslaw National Forest proposed actions for which there is an opportunity for your involvement. The list contains both proposed actions and actions for which the analysis process is already underway. This update is provided to give you an overview of proposed actions on the Siuslaw National Forest in the event you would like to comment. Detailed descriptions of proposed actions can be obtained by notifying the "contact person" associated with a given project. In some cases, mailing lists have already been established for an action or category of actions. If you are already on a mailing list, you will be notified of scoping periods for those proposed actions. If you would like to be on a mailing list, notify the contact person by mail or phone.

Comments received in response to this solicitation, including names and addresses of those who comment, will be considered part of the public record for proposed projects and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who only submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR Part 215. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that, under the FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets.

Proposed actions are grouped by category (Recreation, Special Use Permits, Forestry, Fish and Wildlife, Land Exchanges, Watershed Analysis, Roads, Plan Amendments and Multi-Projects), and within each category in alphabetical order by Ranger District. The information provided for each action includes name, Ranger District, legal description of location, a brief description of the proposed action, and three dates: scoping, decision, and implementation. These projected or actual dates will be updated in subsequent quarterly reports.

Address, phone, and Fax numbers for the Districts are as follows:

Baker Beach Dunes Restoration Project

South Zone Ranger District

T17Sm R12W, S10, 15, 21, 22, 27, 28, 33

The Mapleton Ranger District proposes to control European beach grass and lower the height of the foredune along Baker Beach. An integrated vegetation management plan will be used to control the beach grass. The purpose of the project is to restore the natural movement of sand in the Sutton lake area, thus increasing the amount of suitable habitat for the western snowy plover as well as native plants such as pink sand verbena. About 140 acres will be treated.

Scoping: Ongoing

Decision: 2001

Implementation: 2001

Contact: Bruce Buckley, 541-563-3211 or Dan Segotta, 541-902-6980

Enchanted Valley Stream Restoration

South Zone Ranger District

T17S, R11W, S18, 19, 30

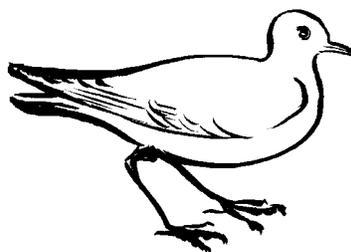

Improve fish habitat in Enchanted Valley portion of Bailey Creek. Add trail bridge over new stream channel.

Scoping: Completed

WATERSHED ANALYSIS

Nineteen watershed analyses have been completed (about 90% of the Forest) including Nestucca Complex, North Fork of Siuslaw, Cummins/Tenmile (coastal stream watersheds between Cape Perpetua and Heceta Head), Yaquina/Big Elk, Mercer/Berry, Oregon Dunes NRA, Indian/Deadwood, Drift Creek-Siletz, Lobster/Five Rivers, Drift Creek (Alsea), Smith River, Yachats, Little Nestucca, Lower Siuslaw, Lower Umpqua, Sand Lake, Salmon Neskowin, Coastal Lakes, and Lower Alsea. The analyses provide a better understanding of the aquatic and terrestrial environments within the watersheds and reveal some management implications for meeting objectives of the Northwest Forest Plan.

The following watershed analyses are being completed or conducted:

Lower Siuslaw Landscape Management Project

South Zone Ranger District

T17S, R9-11W, T18S, R9-11W, T19S, R9-11W

Lower Siuslaw Watershed

Plantation Thinning – 5550 acres of commercial thinning and 3900 acres of precommercial thinning. Thinning includes opening and re-closing 4.1 miles of classified roads and 34.7 miles of unclassified roads; and construction of 1.7 miles of new temporary road.

Road Management – Close 61 miles of road and decommission 11 miles. Road 2127 would be maintained for high clearance vehicles as an alternate route when county road 5110 (Thompson Creek Road) fails at a future date. Where road closures affect access to private land, private access will be maintained.

Stream Enhancement – Place about 340 trees and root wads along 17 miles of streams to add complexity to streams and increase spawning habitat. Restore 2 miles of Karnowski Creek by reconnecting the stream to its historic channel and floodplain. Plant about 800 acres of streamside meadows and alder stands with conifers and hardwoods
