 - Experimental Forest
 - Existing Research Natural Areas
 - Candidate Research Natural Areas
 - Lakes Greater than 400 Acres

The Forest Service uses the most current and complete data available. Geographical Information Systems (GIS) data and product accuracy may vary from map to map. Data and maps may be developed from sources of differing accuracy, accurate only at certain scales, based on modeling or interpretation other than for which they were created, may yield inaccurate or misleading results. The Forest Service reserves the right to correct, update, modify, or replace GIS products without notification. The Forest Service will not be liable for any activity involving this information.
